OPPOSER AND CROSS-RESPONDENT'S NOTICE OF RELIANCE

PURSUANT TO 37 U.S.C. § 2.122(e)

IN SUPPORT OF REPLY

PURSUANT TO BOARD ORDER DATED FEBRUARY 10, 2003

Pursuant to 37 C.F.R. 2.122(e), Opposer and Respondent University of Southern California ("California") submits the following Notice of Reliance on the following materials in support of California's Reply Pursuant to Board Order dated February 10, 2003:

A. Official State Symbols and Emblems of South Carolina

The government of South Carolina maintains at least one website that identifies the "Symbols and Emblems" of the State of South Carolina. That website not only identifies the various flags and seals of the State of South Carolina, but it also typically identifies the dates on which those flags or seals were adopted or modified by the State of South Carolina. Attached hereto as Exhibit A is a true and correct copy of a printout of the South Carolina government website <http://www.lpitr.state.sc.us/studentpage/symbols.htm> and the pages included therein. The evidence is admissible both as an official record of the State of South Carolina and further as a statement by Carolina as party opponent. 37 C.F.R. 2.122(e); Fed. R. Evid. 801(d)(2).

California submits this material to demonstrate that the state of South Carolina has formally adopted certain flags and seals similar to a coat of arms, but that South Carolina has not formally adopted the letters "SC." Indeed, none of the flags or seals that have been formally adopted even contain the letters SC. (See Exhibit A hereto.)

B. Different Dictionary Meanings for the Initials "SC"

The *Acronyms, Initialisms & Abbreviations Dictionary*, 29th Ed. 2001, contains more than four pages of different meanings for the initials SC, which includes "Southern California." Attached hereto as Exhibit B is a true and correct copy of an excerpt from volume 1, part 4 of the *Acronyms, Initialisms & Abbreviations Dictionary*, 29th Ed. 2001 at pp. 2799-3803 (Mary Rose Bonk, Ed.)

California submits this material as further evidence that the letters "SC" are not uniquely associated in the public perception with the government of South Carolina.

C. **"SC" Design Marks Registered by the United States Patent and Trademark Office**

In accordance with 37 C.F.R. § 2.122(e), a party to an inter partes proceeding before the Board may introduce third-party registrations as part of its evidence in the case.

A party to an inter partes proceeding before the Board may introduce, as part of its evidence in the case, a third-party registration, that is, a registration owned by a party not involved in the proceeding.

TMBP § 703.02(b) (citations omitted).

Moreover, the notice of reliance need not attach a certified copy of the registration -- an electronic equivalent of the registration printed out from the Patent and Trademark Office's automated search system is "all that is required." *Id.* (citations omitted).

California respectfully requests, by and through its attorneys of record, that this Board take official notice pursuant to Federal Rule of Evidence 201 of the following third-party registrations on file with this Office:

Section 2(b) of the Trademark Act, 15 U.S.C. § 1052(b), provides that the flags and coat of arms or such other insignia are not registerable matter. Moreover, it states that such registration is barred if the mark "consist[s] of or comprise[s] (whether consisting solely of, or having incorporated in them) the flag, coat of arms, or other insignia of the United States, of any state or municipality, or of any foreign nation." (TMEP § 1204, *emphasis added*.) In its prior briefing, California asked this Board to take official notice of various registrations to

demonstrate that "SC" is not uniquely associated with Carolina.¹ California would also ask this Board to take official notice, in the format described by § 703.02(b), that the United States Patent and Trademark Office has regularly registered the letters "SC" as design or stylized marks. Attached as Exhibit C, Tabs 1-50, are true and correct copies of printouts from the U.S. Patent and Trademark Office Trademark Electronic Search System ("TESS") for the following Registrations of "SC" design or stylized marks:

Tab	Mark	Reg. No.	Owner	Goods/Services (brief description)
1.	SC	0,188,348	Sigmund Cohn Corp.	Precious metals in form of tubes, plates, wire

¹ California submitted a listing of these "SC" marks with its initial Request for Official Notice as part of its motion to dismiss. California did not believe that the requirements of § 703.02(b) applied to the motion. To the extent that the matter is now governed under Fed. R. Civ. Pro. 56, California submits the evidence of the design registrations in the format described by § 703.02(b).

As all of the above Exhibits are printouts of third-party registrations from the electronic records of the Patent and Trademark Office's trademark automated search system, and their contents are not reasonably subject to dispute and are capable of immediate and accurate determination, the Board should take official notice of their contents. By attaching copies of the

documents about which official notice is being sought, California has provided the Board with sufficient information to take official notice of the matters therein. Accordingly, the requirements of Federal Rule of Evidence 201 and 37 C.F.R. § 2.122(e) are satisfied.

On March 26, 1776, the Provincial Congress of South Carolina independent government, electing John Rutledge, President. On the President and Privy Council were authorized by Resolution Assembly "to design and cause to be made a Great Seal of Sout

After the Declaration of Independence, a design for the arms of great seal, prepared by William Henry Drayton, a member of th Council, was accepted, together with a design for the reverse, s been designed by Arthur Middleton.

Both designs were turned over to an engraver in Charles Town as a great seal, which was used by Pres. Rutledge for the first ti 1777. The Seal was made in form of a circle, four inches in diar tenths of an inch thick.

Both the arms and reverse symbolize the battle fought on June 2 between the unnamed, and unfinished fort at Sullivan's Island (t Moultrie), and the British Fleet.

SYMBOLS & EMBLEMS

The State Flag

Asked by the Revolutionary Council of Safety in the fall of 1775 to design a flag for the use of the troops, Col. William Moultrie chose a blue which matched the color of their uniforms and a crescent reproduced the silver emblem worn on the front of their caps. The palmetto tree was added later to Moultrie's heroic defense of the palmetto-log fort on Sullivan's Island against the attack of the British on June 28, 1776.

South Carolina needed a national flag after it seceded from the Union on December 20, 1860. The General Assembly considered a wide range of designs, but on January 28, 1861, added the palmetto to Moultrie's design, thereby officially creating the flag as we know it today. A resolution proposing changing the "royal purple" as a memorial to the Confederate dead was resoundingly defeated in 1899, leaving the Revolutionary War symbolism intact.

By statute the flag shall be displayed "upon the inside of every public school building in this State and school children shall be instructed in proper respect for the flag," and daily except in rainy weather, upon the State House and from a staff upon each County Courthouse. The State Flag is also to be displayed in accordance with rules set by the State Superintendent of Education, on the grounds of educational institutions supported in whole or part, by funds derived from the State. It is also prescribed that any person who injures or desecrates the State Flag, wherever displayed, shall be guilty of a misdemeanor, punishable by not more than \$100 or by imprisonment for not more than 30 days or both.
